

Why not help the environment and start using reusable sandwich wraps

My reusable wraps are perfect for packed lunches, picnics, work bags and plenty more.

My wraps are made with a velcro closure, sized to fit both a two or four slice of bread sandwich.

My wraps are sized 10" by 12". The wrap is specially cut to a rectangle to ensure secure closure and ensure food remains fresh when wrapped.

Available in various patterns.

Please see gallery or listings in my Etsy shop.

This reusable, machine washable wrap is lined with a food safe, waterproof, breathable laminate.

The material is CPSIA certified Eco-PUL™.

Further information about the material is available in 'more info'

It is machine washable at a high temperature but... think eco, think 30 degrees!

Please see full washing instructions in 'more info'
